V1

UNIFORM APPEARANCE
Differences among pieces
from the same production
run are minimal.

V2

SLIGHT VARIATION
Clearly distinguishable
differences in texture and/or
pattern with similar colors.

V3

MODERATE VARIATION
While the colors present on
a single piece of tile will be
indicative of the colors to be
expected on the other tiles,
the amount of colors on each
piece will vary significantly.

V4

SUBSTANTIAL VARIATION
Random color differences
from tile to tile, so that one
tile may have totally different
colors from that on other tiles.
Thus, the final installation will
be unique.
